SUMMARY

I am a Frontend Developer with over 8 years of experience, passionate about creating intuitive user interfaces and smooth, high-performing applications. My journey as a web developer has allowed me to work across a variety of industries such as agencies, large corporations, law firms, and individuals, delivering innovative solutions tailored to meet diverse client needs. I have worked on over 150 websites and collaborated with more than 50 companies, delivering results that consistently exceed expectations. I thrive in collaborative environments, enjoy sharing ideas, and excel at translating complex requirements into elegant, user-centric designs. Beyond my technical expertise, I bring strong communication and leadership skills, honed through roles in event management and as a co-founder of multiple startups. I have had the privilege of contributing to prestigious events such as the Islamic Solidarity Games, youth festivals, TEDx events, music festivals, and university events. Whether working with small teams or leading large projects, I am committed to delivering exceptional results that drive success.

EXPERIENCE

Senior Frontend Developer
Riga, Latvia
Piche
09/2023 - 09/2023

- Led the frontend development of the inner application within a high-impact startup project, driving the architecture and ensuring scalability and performance across one-half of the application.
- Engineered and implemented a custom UI library that includes over 40 reusable components, significantly reducing development time by 30% and increasing consistency across the application.
- Translated complex Figma designs into fully functional, responsive, and interactive user interfaces, maintaining a 100% match in design accuracy.
- Developed dynamic Flow Builders and Custom Dynamic Forms, empowering users with enhanced interactivity and flexibility.
- Conducted comprehensive code reviews, improving code quality and maintaining the clean code.
- Collaborated closely with backend teams to define and refine architecture, ensuring seamless integration and optimal performance across the stack.
- Introduced advanced animations and interactions that elevated the user experience, increasing overall user satisfaction.

Frontend Developer
Riga, Latvia
Decta
03/2022 - 05/2024

- Led the design and development of the new modern payform application, creating 6 distinct prototypes and selecting the most effective one for implementation.
- The final design was fully responsive, ensuring compatibility across all devices and browsers.
- Redesigned the architecture, successfully separating the frontend and backend of the payform application.
- Collaborated closely with the backend team to define and optimize API design, improving system performance and maintainability.
- Enhanced internal and merchant applications, focusing on responsiveness and cross-device compatibility, which led to an increased user satisfaction.
- Improved and expanded product documentation, ensuring it was fully responsive and user-friendly across various devices, facilitating better onboarding and user support.
- Optimized front-end assets using Webpack and Vite, resulting in a 20% reduction in load times and improved overall performance.
- Collaborated effectively with cross-functional teams, utilizing Git and GitLab for version control and ensuring smooth project

Frontend Developer

mtc. Media

Riga, Latvia
03/2019 - 03/2022

- Developed and maintained over 100 fully responsive, corporate and e-commerce websites.
- Collaborated closely with the design team to deliver exceptional user experiences.
- Attended client meetings to understand their goals and requirements and created tailored websites to meet their needs.
- Implemented best practices for website performance and optimization.

Full-Stack Developer

Gravity Inc.

Baku, Azerbaijan
11/2015 - 04/2019

- Led web operations overseeing the development, maintenance, and optimization of internal tools, communication platforms, the company website, and ticketing systems for events.
- Spearheaded the design and development of 15 websites for diverse clients, including retail stores, wine companies, travel agencies, agriculture businesses, and law firms, ensuring tailored, high-quality solutions that meet client needs.
- Directly engaged with clients, attending meetings to understand their requirements and deliver customized web solutions, resulting in high client satisfaction and repeat business.
- Managed post-launch maintenance and continuous improvement of all delivered applications, ensuring ongoing client support and application performance.
- Enhanced management and soft skills through hands-on experience as a stage manager for multiple events, contributing to effective team coordination and project delivery
